

SELECT STATEMENT ASSIGNMENT

ENVIRONMENT: ORACLE 11G EXPRESS EDITION | SQL DEVELOPER

QUESTION6:

SELECT PLANNO, COUNT(*) AS LINENO , SUM(NUMBERFLD)

FROM EVENTPLANLINE

GROUP BY PLANNO;

The screenshot displays the Oracle SQL Developer interface. The 'Connections' pane on the left shows the 'EVENTPLAN' schema with its tables. The 'Worksheet' pane contains the following SQL query:

```
SELECT PLANNO, COUNT(*) AS LINENO , SUM(NUMBERFLD)
FROM EVENTPLANLINE
GROUP BY PLANNO;
```

The 'Query Result' pane at the bottom shows the results of the query, with 2 rows fetched in 0.016 seconds. The results are as follows:

	PLANNO	LINENO	SUM(NUMBERFLD)
1	P100	4	7
2	P95	1	2
